

RULES REGARDING RINK ALLOCATION FOR EVENING GAMES

The following rule relating to rink selection for evening games was agreed during the last Club AGM and will be in force from the 2022 season.

This is being introduced to make the rink selection/draw fair for all those taking part and not favour those that are able to arrive early at the club for their game.

1. Please ensure that if you have an evening match arranged that it is entered in the Green Diary so that everyone will see how many rinks are required and who has booked them. Any match not in the diary will only be able to select a rink once all the booked rinks have been drawn.
2. Anyone wanting to play their match earlier than the usual 6pm start would need to start their game early enough in the day to be finished by 5.45pm or face being asked to abandon their game and complete it at a later date. Otherwise matches to start at 6pm, unless there are no other matches in the diary for the same evening, in which case the game can start as soon as all players have arrived.
3. No rink draws shall be made until a representative of each team have arrived at the club, along with their opponents, who should be asked to draw the rink. If players have not arrived by 5.55pm then those present can complete the rink draw for all the teams that are there.
4. Priority for rink draws is as follows: External Competitions then Internal Competitions followed by Friendly Roll Ups.
